8 March 2021

Hemogenyx Pharmaceuticals plc

("Hemogenyx Pharmaceuticals" or the "Company")

H.C. Wainwright Investment Conference

Hemogenyx Pharmaceuticals plc (LSE: HEMO), the biopharmaceutical group developing new therapies and treatments for blood diseases, is pleased to announce its participation at the H.C. Wainwright Global Life Sciences Conference. The Company will be featured as a presenting company. The conference will be held on a virtual platform from March 9-10, 2021.

As part of the Company's presentation, Dr. Vladislav Sandler, CEO of Hemogenyx Pharmaceuticals, will provide an overview of the Company's business and product candidates.

If you are an institutional investor, and would like to listen to the Company's presentation, please click on the following link to register for the conference: www.hcwevents.com/globalconference.

The conference will feature over 400 corporate presentations and panels both live and on-demand. Dr. Sandler's presentation is accessible using a webcast link.

Dr Vladislav Sandler, CEO & Co-Founder of Hemogenyx Pharmaceuticals, commented: *"Our presentation at the H.C. Wainwright Global Life Sciences Investment Conference provides the Company with a great opportunity to inform the investment community about our achievements and increase the Company's visibility globally. It also allows us to further establish Hemogenyx Pharmaceuticals as a leader in the field of the development of medicines for treatment of blood and autoimmune diseases."*

About Hemogenyx Pharmaceuticals plc

Hemogenyx Pharmaceuticals is a publicly traded company (LSE: HEMO) headquartered in London, with its US operating subsidiaries, Hemogenyx Pharmaceuticals LLC and Immugenyx LLC, located in New York City at its state-of-the-art research facility.

The Company is a pre-clinical stage biopharmaceutical group developing new medicines and treatments to treat blood and autoimmune disease and to bring the curative power of bone marrow transplantation to a greater number of patients suffering from otherwise incurable life-threatening diseases. Hemogenyx Pharmaceuticals is developing several distinct and complementary product candidates, as well as a platform technology that it uses as an engine for novel product development.

For more than 50 years, bone marrow transplantation has been used to save the lives of patients suffering from blood diseases. The risks of toxicity and death that are associated with bone marrow transplantation, however, have meant that the procedure is restricted to use only as a last resort. The Company's technology has the potential to enable many more patients suffering from devastating blood diseases such as leukemia and lymphoma, as well as severe autoimmune diseases such as multiple sclerosis, aplastic anemia and systemic lupus erythematosus (Lupus), to benefit from bone marrow transplantation.

About H.C. Wainwright & Co.

H.C. Wainwright is a full-service investment bank dedicated to providing corporate finance, strategic advisory and related services to public and private companies across multiple sectors and regions.
