

2 February 2024

Hemogenyx Pharmaceuticals plc

("Hemogenyx Pharmaceuticals" or the "Company")

Approval and Issuance of U.S. Conditioning Patent

Hemogenyx Pharmaceuticals plc (LSE: HEMO) is pleased to announce that a patent application entitled *Method of Eliminating Hematopoietic Stem Cells/Hematopoietic Progenitors (HSC/HP) In A Patient Using Bi-Specific Antibodies* has been allowed to be issued as a patent by the United States Patent and Trademark Office.

Dr Vladislav Sandler, CEO & Co-Founder of Hemogenyx Pharmaceuticals, commented: *"I am excited by the decision of the United States Patent and Trademark Office to allow this patent application. This is a significant addition to the patent protection for CDX which remains one of our key product candidates for the future. This also solidifies our Company's position as a leader in the area of conditioning bone marrow transplants"*.

About Hemogenyx Pharmaceuticals plc

Hemogenyx Pharmaceuticals is a publicly traded company (LSE: HEMO) headquartered in London, with its US operating subsidiaries, Hemogenyx Pharmaceuticals LLC and Immugenyx LLC, located in New York City at its state-of-the-art research facility.

The Company is a pre-clinical stage biopharmaceutical group developing new medicines and treatments to treat blood and autoimmune disease and to bring the curative power of bone marrow transplantation to a greater number of patients suffering from otherwise incurable life-threatening diseases. Hemogenyx Pharmaceuticals is developing several distinct and complementary product candidates, as well as platform technologies that it uses as engines for novel product development.
