

RNS Reach – Non-Regulatory

29 July 2024

Hemogenyx Pharmaceuticals plc

("Hemogenyx Pharmaceuticals" or the "Company")

Presentation at Macrophage-Directed Therapies Summit

Hemogenyx Pharmaceuticals plc (LSE: HEMO), the biopharmaceutical group developing new therapies and treatments for cancers and viral diseases, is pleased to announce its participation in the 6th Macrophage-Directed Therapies Summit ("Summit"), which will be held on October 1-3, 2024, in Boston, MA. The Company will present its work on its proprietary Chimeric Bait Receptor ("CBR") platform.

The Company's CBR platform is an advanced immunotherapy designed to program or redirect innate immune cells, such as macrophages, to eliminate specific types of cancer as well as combat infections from both existing and emerging viral threats. The Company's presentation at the Summit will focus on the use of the CBR platform for the treatment of rare cancers.

Dr. Vladislav Sandler, CEO & Co-Founder of Hemogenyx Pharmaceuticals, commented: *"Our presentation at the Macrophage-Directed Therapies Summit will provide the Company with an opportunity to further establish its unique position in the emerging field of myeloid cell therapies. It will also allow us to exchange ideas with like-minded cell therapy developers, potential collaborators, and investors."*
