Hemogenyx Pharmaceuticals plc

("Hemogenyx Pharmaceuticals" or the "Company")

Recruitment of Second Patient for HG-CT-1 Clinical Trial

Hemogenyx Pharmaceuticals plc (LSE: HEMO) is pleased to announce the recruitment of the second patient for its clinical trial of HG-CT-1, its proprietary CAR-T cell therapy, for the treatment of relapsed or refractory acute myeloid leukemia (R/R AML) in adults. This marks a significant step forward in the Company's clinical development program and underscores the progress toward delivering a potentially life-saving treatment for AML patients with limited therapeutic options.

The manufacturing of HG-CT-1 for the second patient, carried out by the Company's team of scientists and quality control professionals, is scheduled to commence shortly.

Further updates on the clinical trial will be provided in due course.

Dr. Vladislav Sandler, CEO & Co-Founder of Hemogenyx Pharmaceuticals, commented:

"The recruitment of the second patient is indicative of the promising results of the clinical trial for HG-CT-1 thus far and represents another critical step in advancing HG-CT-1 as a potential breakthrough treatment for relapsed or refractory AML. This milestone reflects the dedication of our team and the strength of our science, bringing us closer to addressing an urgent unmet medical need."

Market Abuse Regulation (MAR) Disclosure

Certain information contained in this announcement would have been inside information for the purposes of Article 7 of Regulation No 596/2014 (as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018) until the release of this announcement. The person responsible for arranging for the release of this announcement on behalf of Hemogenyx Pharmaceuticals plc is Dr Vladislav Sandler, Chief Executive Officer & Co-Founder.
